400 Main Street  
East Hartford, CT 06108

**To:** Element Materials Technology  
18100 S Wilmington Ave.  
Rancho Dominguez CA 90220

**Subject:** XRM-M Certification

**Date:** April 11, 2017

Attention: Julie Nguyen

Julie:

Element Materials Technology is granted certification to perform Nondestructive Test (NDT) Inspection to the requirements of Pratt & Whitney (P&W) NDT Method Specification XRM-M Code 3.

Certification is based upon certification survey(s) performed on April 6, 2017, review of applicable procedures to be utilized, completion of required corrective action, completion of "Dry Run Over-inspection" and completion of Level III requirements.

Douglas Davies is certified as the Level III for XRM-M.

A Level III certification may be revoked whenever there is a valid reason to question the quality of NDT Inspection or process control or if there is proof that the responsibilities of the Level III are unfulfilled.

Very truly yours,

Laurence Perry
